

# ESCAPE

By Staunch Development

Birds are beautiful, strong yet fragile creatures. They vary among breeds but most share one thing in common which is migration.

When birds lack resources they migrate, similar to the Lebanese people's behavior. Since they feel entrapped with chaos, surrounded by sewage; water and electricity shortage, they flee abroad.

Escape gives the Lebanese a chance to experience the lifestyle they have always dreamt of without leaving their nest, right here at the pearl of the Lebanese coast. We no longer have to Escape away from home, rather, escape becomes home.

Escape is a village, based on a utopic vision, where everything we are missing in Lebanon is present behind its fences; from 24/7 electricity, water & security services, to serenity, calmness, an ecofriendly environment

# VILLA EVORA

Perched between sky and sea, Villa Evora embodies the spirit of a majestic coastal bird, soaring effortlessly above the shoreline. Designed to capture panoramic views, natural light, and refreshing sea breezes, Evora represents freedom, elegance, and a refined sense of living. Its architecture reflects the bird's graceful wingspan through open spaces, flowing lines, and seamless indoor-outdoor connections, creating a sanctuary where residents experience both tranquility and inspiration every day.
